Microsoft Windows (including Windows Server), Mac OS X, Unix operating systems, and more recently Android. AutoCAD Desktop comes with an installer that can create shortcuts on the desktop, and a library of shortcuts. The AutoCAD Desktop application (as of AutoCAD 2010) supports the following versions of AutoCAD: AutoCAD LT (2D drafting application) AutoCAD Architecture AutoCAD Mechanical (3D BIM and architectural CAD) AutoCAD Civil 3D (architectural CAD) AutoCAD Electrical AutoCAD IronCAD Autodesk Software Architecture In software engineering, the term "software architecture" describes how an application should be structured. It consists of high-level design principles, that are applied to the data that the application operates on and the methodologies used to build it. It typically includes a software model, which is used to generate implementations. It also includes a deployment model, which is used to deploy the actual implementations. AutoCAD was initially released in a monolithic main executable. It is now split into several more individual executables: AutoCAD R14L13.4, which contains the core application engine. AutoCAD Inventor 2010, which contains Autodesk Inventor, a 2D, vector-based BIM modeling application. AutoCAD LT 14.0, which contains the core drawing engine. AutoCAD Architecture and AutoCAD Electrical are separate applications. Architecture is a 3D, parametric modeling application, which supports param a1d647c40b

The deal is expected to be finalized Friday when the league and the three teams that operate it (the Green Bay Packers, Detroit Lions and Dallas Cowboys) finalize the transaction. A press conference is planned for Friday. "The market for the Green Bay Packers franchise is strong," Ford President and CEO Alan Mulally said in a statement. "A great deal of our new business is being generated with young people who prefer to own the products they use. "They are natural owners of the American Football League and, if we're fortunate, of Ford Motor Company." Ford Motor Company will assume the Packers' debt and will pay \$20 million for the team in cash, for a total investment of \$200 million. The transaction is expected to be financed through a combination of cash and debt. The team was sold at a cost of \$140 million in 2000 to an investment group led by Milwaukee insurance executive and real estate developer Mark Murphy, who purchased it for \$250 million in 1987. Ford will pay \$1.2 billion to acquire a 50% ownership stake in General Motors. The deal is expected to close in the first quarter of 2009. It marks a change of ownership for the Packers, which until now have been affiliated with the Murphy family, who were part owners and directors of the club until the Murphy family sold the team to a group of investors led by Murphy in 2000. The Packers have been a family-owned team for 75 years. "
