Download Download Analog Lab VstÂ .Q: Add image as a sprite at the given position I am trying to
add an image as a sprite to a panel, and set it's position to the size of the image. However when I try
to add the image, it appears in the top left corner. I do not understand why this happens, but it is
happening. Sprite sprite = new Sprite(); Image image = Image.FromFile(i); sprite.Add(image, 0, 0);
//sprite.Parent = this; image.Dispose(); sprite.Dispose(); A: If you want to use it later, I suggest you
to dispose the Image object before creating the sprite: Image image = Image.FromFile(i);

sprite.Add(image, 0, 0); image.Dispose(); Q: XPath get element by attribute? I have a XML document that looks like this: What do you do for a living? Manager Data entry I want to read out the question and its option value. For example if my options looks like this: something else something Then I want to print out the question and its value. (in Python) Thank you for your help! A: You can do it like this: using System; using System.Xml; using System.Xml.XPath; class Program { static void Main(string[] args) { var document = new Xml
