can compete by taking turns deploying five cards from the beginning of their decks to the heads and tails of the Scarlets. Each player has all the information at all times and can predict, because they have been taking turns, what effect their opponent's cards will have and can play to counter-strike. Some people prefer the "rules-lite" play of Dr. Seuss (the one where Fox in Socks is one of the prescribed characters), but the draft rule cheat sheet may help people learn to play. A: I'd recommend Rules of Possibility for an explanation and sample games. It addresses all the points in a fairer and more amusing way. /* * Copyright (C) 2013 Mobs&Geeks GmbH * * This program is free software: you can redistribute it and/or modify * it under the terms of the GNU General Public License as published by * the Free Software Foundation, either version 3 of the License, or * (at your option) any later version. * * This program is distributed in the hope that it will be useful, * but WITHOUT ANY WARRANTY; without even the implied warranty of * MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE.
